NUMBER 109

HUNS DELIVER BIG ATTACK Allies Make Material Advance

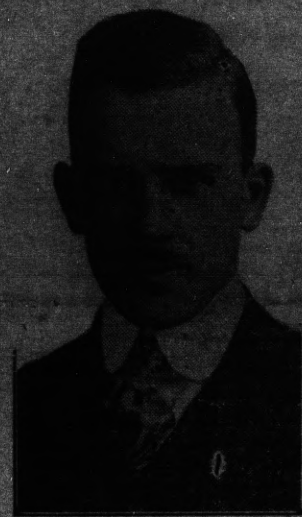

TINNING IS WELL QUALIFIED TO HANDLE LAW BUSINESS FOR COUNTY

In today's issue of this paper appears the announcement card of A. B. Tinning for the office of District Attorney. Mr. Tinning is in Richmond this week, and is getting acquainted with a great many. He is much pleased with the reception he is getting and is being assured of much support from many quarters. The candidate has a good record, in making a clean campaign, and feels that the primaries on the 27th of August will nominate him for the office he seeks.

Mr. Tinning is a native son of this county, and graduated from the grammar and high schools at Martinez with honors. He is also a graduate of the school of Mechanical Arts in San Francisco.

At 1908 he entered the University of California in the law department, and completed the full course and graduated, afterwards going west, and going through the law school at Harvard.

In 1914 he was admitted to the bar, practiced law in San Francisco for two years, and for the past two years has been associated with his father, W. S. Tinning, the pioneer

AUTO BUS LINE IS DENIED A FRANCHISE BY CITY COUNCIL

John R. Hanford is not much of a diplomat—that much is certain. Mr. Hanford has had an application in to the city council for an auto bus license or franchise to run from Sutter to connect with the Redwood ferry. The council takes the position that if Mr. Hanford would make his Richmond terminal at Twenty-third street and Macdonald avenue they would grant the franchise, otherwise they would deny it.

Mr. Hanford was present at the meeting of the council last night and stated that in reality he had nothing to do with the auto bus enterprise, but was merely a member of the ferry corporation. The auto bus is simply a feeder for the ferry and calculated to supply business from this city, Berkeley and Oakland for their craft. He said for the first few months unquestionably the venture would be a losing one, but ultimately it would pay the property for their investment, provided it would be permitted to make its terminal at Sutter and Macdonald. He argued that the difference in time—some four minutes—would absolutely make the Twenty-third street terminal out of the question, as the people would patronize the route which appeared to them shorter.

Members of the council took the opposite view and the result was that the franchise was denied. Hanford became very angry at the action of the council and told the members in a veiled way that he

BRITISH EARL FOUND DEAD FROM GUNSHOT WOUND

LONDON, July 30.—Thomas Francis Anson, the third earl of Litchfield, director of the National Provincial Bank of England, the Bank of Australasia, was found dead today in the grounds of his estate at Shugborough Park, Stafford, with a gunshot wound in the head. Lord Litchfield was born in 1855.

BANDIT LOOTS EXPRESS CAR; KILLS MESSENGER

CHARLOTTESVILLE, Va., July 30.—An express car on a west-bound Chesapeake & Ohio passenger train passing through here early today was robbed by an unidentified white man who bound and gagged the express messenger. The safe was emptied of all valuables.

MUNITIONS DESTROYED BY FOE BEFORE RETREAT

AMSTERDAM, July 30.—All German war materials were destroyed before the beginning of the "well prepared retreat" near Fere-en-Tardenois and Villers-Agron, according to dispatches from Berlin today quoting a semi-official statement.

owned property here, but had paid more for it than it would ever bring him—that he considered the action of the council a blocking game which would bring the city nothing. He was informed that the council was in the employ of the people of Richmond and not working for a transportation company that had no interests here, except what it might be able to get out of our people.

Some twenty members of the Merchants Association and Chamber of Commerce were present and were interested listeners to the ill-fated speech of the ferry man and the members of the city council.

U. S. TROOPS MEET SMASH OF GERMAN SOLDIERS

WITH THE AMERICAN ARMY
ON THE AISNE-MARNE FRONT,
July 30, 1 p. m.—Under a fire from the enemy only slightly less than that of yesterday the Americans in

front north of the Ourcq held on to their positions this forenoon and even advanced a little toward the road from Stirling to Clergen.

Repeated efforts by the enemy to dislodge the Americans were futile. On the Americans' left the French are moving forward. To the right the lines holding steadily.

The guards that were brought in by the Germans to attack the Americans yesterday appeared today to have been withdrawn by the German command.

The fighting is the heaviest the Americans have experienced. Their conduct in winning the praise of the French observers.

LONDON, July 30.—The Germans have been counter attacking very heavily along virtually the entire battle front, according to news that reached London shortly after noon today. Their attack was an especially heavy one in the American sector, and resulted in driving

the Americans out of the village of Clergen, about five and a half miles southeast of Fere-en-Tardenois.

Another German thrust drove the Americans back from Reugnot, near Grand Rosny, northwest of Fere-en-Tardenois.

Some advance has been effected by the allies in the Ardre Valley, along the easterly side of the front, toward the village of Aubilly. A certain amount of ground likewise has been gained near the center in the neighborhood of Villers-Agron-Aigny.

The main advance on the westerly side of the front seems to have been at Grand Rosny, about five miles northwest of Fere-en-Tardenois. The French here are progressing north on to the crest of the plateau between the Vesle and the Ourcq.

There has been heavy fighting near Busancy, five miles south of Soissons, and also in Plesier wood, about five miles farther south. In

this latter locality, forty-five prisoners were taken belonging to three divisions of the enemy now engaged in the Marne salient. There are seventy-on such divisions, of which ten belong to the northern army of Crown Prince Rupprecht of Bavaria.

The enemy's withdrawal is reported still orderly, and military opinion in London discounts the possibility of any rounding up of Germans in the salient.

PARIS, July 30.—The fierceness of the fighting Monday, it is believed here, is a sign the German retreat has reached its limit and the enemy will make a stand with his right wing on the plateau south of the Ourcq and with his left wing on the hill south of the Ardre. For the defense of this line, it is said, the Germans will devote all of General Von Bosh's army and the reserve divisions taken from Crown Prince Rupprecht of Bavaria.

CITY COUNCIL MEETING HAS LITTLE OF INTEREST TO LOBBY

Councilman John Hartnett and Mayor Lane were absent from the meeting of the city council last night. The former was reported as being sick and the latter was off to Redwood during politics. The mayor was present at the star chamber session of the board, but left immediately after and did not take part in the routine business. His place as presiding officer of the council was taken over by Councilman Long.

The chief of police and City Clerk A. C. Paris were granted vacations of two weeks duration, beginning the first of August.

The Grand Western Power company insists that Contractor Haskell of the Richmond dredging company, which is really Cutting and Warren, owe the sum of \$1170 for power consumed in building the mud embankment across from Bulldog Point to Brooks Island. It appears that the company never liquidated their power bill and the public service corporation are looking to the city for their money. No action was taken in the matter last night, but it is understood the city is going to protect the power company for the service.

In the matter of the claim of Randall, the man who ran his automobile into an open excavation in broad daylight, thereby breaking a front wheel, the council denied the claim of \$14.70, on the ground that the city had nothing to do with the excavation, which was doubtless due to carelessness on the part of some private company employee or an employee of the street superintendent's office.

(Continued to page Four)

Turkey Tires of the War Scores Russia-German Pact

AMSTERDAM, July 30.—Haki Pasha, Turkish ambassador to Germany, is dead, according to a report received here today.

Haki Pasha was the representative of Turkey at the Brest-Litovsk peace conference.

AMSTERDAM, July 30.—Turkey is going to handle the situation in the Caucasus according to her own ideas. This is indicated in a telegram from Constantinople dated July 28, which quotes an article in the newspaper Nasiri Ekifair, presenting the Turkish viewpoint.

"We have nothing to say against the principle laid down in the Brest-Litovsk treaty," says the article, "but when the Caucasus, newly reorganized, refused to be bound by the treaty, what is more natural for us than to take into consideration the necessities of this new situation created on our important eastern front? Could we close our ears to the appeal of the government of a people largely of the same race and same creed as ourselves?"

WASHINGTON, July 30.—No official advice regarding the reported break in relations between Turkey and Germany have reached Washington, but the government would not be surprised if Turkey has been driven to an open rupture, as there is a well founded background for the report.

Reports that a Turkish mission recently had been trying in Switzerland to cultivate friendship with some of the allied governments have been received here.

It would be natural, officials said, for the Turkish government to endeavor to find some new friends among the powers before breaking with its old associates.

When the present sultan came to the throne in Constantinople, a few weeks ago, some very strong anti-Germans came into power.

GERMANS BLAMED

Many Turkish officials blame the Germans for the lack of food and other supplies in Turkey, as well as the reverses sustained by the Turkish arms.

Germany promised assistance to the Turks in the Palestine and Mesopotamia campaigns, where the British forces have been consistently defeating the Turks.

In neither case has the German pledge of aid been fulfilled, and the Turks are indignant as a result.

The strained relations between Turkey and Bulgaria, which recently resulted in armed conflict, have caused strong anti-German feeling in both countries.

TURKS DISSATISFIED

The Turks are satisfied they did not receive fair treatment in territory when the peace with Rumania was signed, and the Bulgars have much the same feeling. Both coun-

tries are said to realize that they are being impoverished by the Germans in the effort to provide food for the Teutonic soldiers and civil population.

King Ferdinand of Bulgaria is represented as fearing the dismemberment of his kingdom after the war and as having difficulty in keeping in control the very strong anti-German element with which he had to deal when he decided to cast his lot with Germany. This element has lost none of its strength since Bulgaria's entrance into the war.

STEEL WORKERS IN RICHMOND ARE OUT ON STRIKE FOR MORE PAY

Two hundred boiler-makers and blacksmiths are on strike for higher wages at the Western Pipe and Steel plant, one of the big institutions in this city with a large amount of war work on hand. The men are striking for salaries commensurate with the present high cost of living and with the wages paid by other concerns about the bay.

At the present time, it is contended, the company is paying its highest priced men \$4.00 per day and many of them do not get that amount of money for their services. Some receive as low as \$3.50.

Last night representatives of the company and the labor unions were trying to effect a settlement in the scale of wages and they had another session today, but nothing has yet been accomplished, according to some of the men out on strike. It is thought the company will accede to the demands of the employees.

"Do You Really Open Dollar Accounts?"

Do we? Most assuredly yes! When we advertise that we gladly open an account with anyone—regardless of the amount with which they want to start—we mean just that!

And we are putting dollar accounts on our books every day. We welcome them. For we know that the person with grit enough to start with a dollar will add to it.

One of the best features of a savings account is that while you add to it, it adds to itself. We pay 4 per cent interest.

USELESS WAR INVENTIONS

What is the wake of a torpedo? A ribbon of tiny bubbles across the sea. They break and leave no mark upon the surface.

There is a second track which the torpedo has made. This is a groove cut deep in the minds of the American people, but not as Germany tried to engrave it. Our reaction to the submarine is persistence, not terror.

Germany shattered our peace with torpedoes. Submarines have reached our coast in their efforts to hold back our troops and sink our supplies. They have only increased our determination to "get across with the goods."

A submarine has been our best recruiting agent. The torpedo which sank the Tuscania won more recruits to the Army than any patriotic demonstration could have done. The submarine has become as much a part of our mental background as flivvers and ketchup.

With many men the defeat of the "sea wolf" has become an obsession. Inventions flood the Patent Office, and suggestions pour into the Navy Department. Men of all sorts submit their plans—professional inventors, captains of fishing boats, and expert mechanics. Each one believes that his invention will clear the sea of enemy craft.

Not all war inventions have to do with the submarine. They range from fireless cookers to chain armor.

At the Patent Office there are filed plans and patents on devices which never can be used. A superficial knowledge of the subject has led men to elaborate impractical schemes. To discourage such men from continuing the expensive process of procuring a patent, the office has prepared booklets for inventors which contain some valuable "Do's" and "Don'ts" on the subject of war inventions.

One impractical plan often submitted is to have a torpedo shield on each side of a vessel, which will either deflect the torpedo or explode it at a safe distance from the hull. The character of this fender varies with different plans. One man sketched a shield of steel bars, like a toaster. This was to be at the end of arms which extended from the side of the ship. At the approach of a torpedo it would be lowered, and would reach to a sufficient depth to protect the vessel. Variations of the same scheme are steel nets, and even walls of steel plate running parallel with the length of the ship.

There are two distinct objections to devices of this sort. If they are permanently lowered, they would so impede the speed of the ship as to render maneuvering impossible. Then, to protect the hull if a shell should explode against it, the shield would have to be some 35 or 40 feet away. The strain of a huge steel net or wall on the supporting arms would be tremendous and the ship's hull also would be in danger of tearing. Again, to lower such protection against a coming torpedo would be impossible, both because of the speed at which it travels and the fact that it does not advertise its approach.

One ingenious patriot suggested a line of magnetized poles along the coast which would draw submarines inward. Torpedoes fitted in some way with magnets are a popular idea. But

the field of a magnet is smaller than the distance a transport captain tries to keep from the enemy.

All applications for patents pass through the hands of a Patent Office advisory committee. They send directly to the War and Navy Department any inventions which they think of military value. Then, if the publication of descriptions of any inventions would aid the enemy, the patent is deferred until after the war.

But only a small percentage of the war inventions go to the Patent Office. They are sent to the War Department directly and there are referred to invention section of the General Staff. This section, of which Col. Hilton is the head, considers some 3,000 inventions a week. But only a few of them are selected for study at the Advisory Board.

This board, consisting of Army officers, with two civilian members, passes on to the department inventions which would be of use to them. Often a man will spend time and labor on a machine similar to one already in use. Duplication of effort and wasted energy are tragedies in inventing. Because of this duplication and the impractical or even absurd nature of a few inventions the satisfactory ones are in a distressing minority. According to a member of the Advisory Board the average of usable war devices handled by the General Staff is only 1 or 2 in 1,000.

Research is a separate field from invention. It is the development of ideas and the solving of problems. Extensive research is now being conducted in all matters of aeronautics and photography. It is done in the various Government bureaus and in private laboratories.

The science and research division of the Council of National Defense is the body to which problems are referred for solution. They are given to the laboratory which can handle them or studied by some of the scientists there. The ablest men of our country are engaged in physical and chemical research necessitated by the war.

The boards and commissions directing research and sorting out inventions are bewildering in number and name. But they are linked together by a system of joint members who supply the needed continuity.

Every available idea is needed to keep the wheels of the war moving smoothly; but so efficient are the men charged with recruiting scientific inspiration that there is a grave danger of wasted time to the man who proceeds independently, without sure knowledge that his work is the kind in demand.

STENOGRAPHER, male or female, wanted at once. Apply to Fountain Co., Point Richmond, Cal. July 29-31

NOTICE TO TAXPAYERS
 State and County Taxes for the Fiscal Year 1917-1918
 Office of the Collector of State and County Taxes, Marinette.
 Notice is hereby given that I have received from the Auditor of Contra Costa County the duplicate assessment book for the fiscal year 1917-1918, and that the taxes on all personal property owned by real property and one-half of the taxes on all real property, are due and payable on the THIRD MONDAY IN OCTOBER, and will be delinquent on the first Monday in December next thereafter, at six o'clock P. M. and that unless paid prior thereto fifteen per cent will be added to the amount thereof, and that if said one-half be not paid before the
LAST MONDAY IN APRIL NEXT at six o'clock P. M. an additional five per cent will be added thereto. That the remaining one-half of the taxes on all real property will be payable on the
FIRST MONDAY IN JANUARY NEXT at six o'clock P. M. and that unless paid prior thereto, five per cent will be added to the amount thereof.
 That all taxes here be paid at the provided first installment, as herein provided, in due and lawful manner.
 Taxes are due and payable at the office of the Tax Collector, in the Courthouse at Marinette, Contra Costa County.

The Economy Store

DRY GOODS, NOTIONS, Etc.
156 Washington Avenue
POINT RICHMOND, CALIFORNIA

July 30, 1918.

To All My former Customers.

Dear Friends:

As I have closed out my business in Point Richmond to open an exclusive women's and children's Ready-to-wear Store on McDonald Ave., Richmond, I take this occasion to thank you for your patronage while I was in business in Point Richmond.

I have sold my entire stock of dry goods, hosiery, women's and children's underwear, corsets, etc., to THE BIG STORE, corner 7th and McDonald Ave., Richmond's progressive department store. I contracted for almost all my goods long before the present high prices went into effect and I sold them to THE BIG STORE at very much lower prices than they can now be bought at wholesale.

To dispose of these goods quickly THE BIG STORE will conduct a sensational "turn-over" sale beginning at 9 o'clock, Saturday, August 3rd. I advise you not to miss this sale whatever you do because I know that THE BIG STORE will sell these goods at prices that will amaze you and I am naturally interested to see that my friends get the benefit of these low prices.

I will personally be present at THE BIG STORE during the first few days of the sale so as to greet my old friends and customers from Point Richmond and see that they receive proper attention. I sincerely hope that you will be there to get the benefit of these wonderful bargains.

Again thanking you for your patronage in the past, I am

Respectfully yours,

L. GARFINKLE.

CANNING SUGAR MUST BE SENT TO GROCER

All householders who have sugar left over from their canning allowance will please return surplus to their grocer and receive credit for same. This is absolutely necessary on account of the present shortage of sugar.

M. H. IVORY,
Food Administrator.

July 29-31.

Not One Chinese In Ten Thousand Has Constipation

except a few drug users, while about 99 per cent of the Americans suffer from this dread complaint. The FONG WAN HERB SPECIALIST gives the following explanation of this phenomenon. "When a Chinese is ill, he immediately consults a Herb Specialist and the cause is removed, but when an American feels ill, the first thing he does is to take a PILL. This may relieve him temporarily, but repeated doses of such drugs eventually paralyze the bowels. As the bowels then no longer move naturally, phlegm takes on a habit, the weakened bowels drag and there is a heavy pressure of gas on the region. If the poor fellow be a man, the physician will usually tell him that his trouble is piles; if a woman, that it is female trouble." By drinking the Fong Wan harmless Chinese herbs, hundreds of Americans have not only been relieved of their stomach and bowel troubles, but have been made normal again. Their testimonials are on file.

HANDICAP IN OVERWEIGHT

There is an article in the August American Magazine about the dangers of overweight. The author says:

"Data gathered by insurance companies show that after forty a higher death rate is to be found among persons who weigh more than the average for their height. When a man is in his fifties, if he is twenty pounds overweight, he has a fifteen per cent handicap mortality to face, and one who is forty pounds overweight increases his chances of dying by forty-five per cent."

"The report also shows that among the hundred thousand persons studied to obtain these facts not a single really fat per-

son lived to be over forty, whereas fourteen who were under weight reached eighty, and one

man lived to celebrate his ninety-fifth birthday when his much stouter friends had long passed on to their graves."

The Choice of Those Who Know

Manufacturers and leading motor car distributors recommend ZEROLENE. The majority of motorists use ZEROLENE.

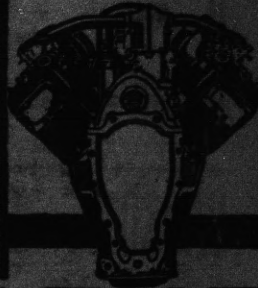

ZEROLENE reduces wear and gives more power because it keeps its lubricating body at cylinder heat. Gives less carbon because, being refined from selected California asphalt-base crude, it burns clean and goes out with exhaust.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

At dealers everywhere and Standard Oil Service Stations.

STANDARD OIL COMPANY
(California)

Correct Lubrication for the "V"-Type Engine
This, the "V"-Type of automobile engine, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the combustion chamber and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

WINSOME DRAMA ATTRACTS MANY PLAYGOERS

As you know, Dorothy Dalton is always winsome, but in her Paramount picture "Love Me" which is at the Richmond Theater, she is more than ever outshining in her new role.

Miss Dalton is a girl of great determination. When she made up her mind at an early age to go on the stage, she met with great opposition from her parents, her father wishing her to take up the study of law. She would doubtless have made a success of this, for she possessed great argumentative ability, not only winning her point from her father, but even persuading him to provide her tuition for a course at the American Conservatory of Dramatic Art.

After playing with several stock companies, she spent two years on the Keith Circuit with an act of her own. She advantages of home life made possible by the studio work accounts for Miss Dalton's abandonment of the stage. Outdoor sports appeal strongly to her, for she believes that perfect health—and hence success—depend entirely upon correct habits of thought and exercise. Between rides and drives and rehearsals, Miss Dalton is often to be found among the pines in her splendid library at the home in Hollywood, California, which she built for herself and her mother, and which is noted for the original and amusing social functions given by its mistress.

CITY COUNCIL MEETS

(Continued from page One)

office, in either event the city could not be held liable for the damage. Such was the advice of the city attorney which reverses the popular theory that cities are always liable for the negligence or carelessness of their employees.

The city council was notified by the Western States Gas and Electric company of the order received from power administrator of the railroad commission to conserve power. The order has been published heretofore and refers particularly to electric display and street signs and the lighting of stores during closing hours.

RICHMOND TO LIGHT COMPANY RED CROSS IS RAISE QUOTA IN HER BABY BOND DRIVE NOTIFIES ITS CUSTOMERS TO CONSERVE MAKING MONEY FOR BOYS IN TRENCHES

Richmond is aroused, her fighting spirit is up, she is sore clean through, her coat is off, sleeves rolled up, and she is going to fight to uphold her honor, an honor that we Richmonders always held sacred, an honor that we never actually lost, an honor that never will be lost, especially an honor that we are by no means or means going to loose at this time. That we can redouble our efforts enough to enable us to pull through the present War Savings Stamp drive and retain our honor, no loyal Richmonder ever for one moment doubted. If so, let the idea be dispelled from their minds immediately, for Richmond, must, will, and is going to reach its allotted quota and promptly at that.

Every lodge, organization, labor union, and club in the city is lining up day by day, with pledges reaching into the thousands, which they in turn will find ways and means of disposing of. The banks will take a block of the baby bonds, the Standard Oil Co., is going to redouble their good efforts, Pullman, Santa Fe and in fact every large local industry is going into this renewed spirit with a zeal and a dash that is amazing, typical of Richmond, the way we do things, the kind of people we are and the results we get.

And the reason why so much energy will be put forth? Reason enough, to much reason in fact. Our quota in this present War Savings Stamp drive is \$400,000 and to date we have only raised in cash and pledges \$150,000. Is this not reason enough why our blood should boil? Are we going to sit idly by and not reach our total? We are proud of our record and it shall not be spoiled! The redoubled effort to save the day will soon be upon us, but do not wait to be so-called for your subscription. Come forward like a true Richmond patriot and invest your money, not only five dollars but a thousand if you can! Do this and only this, which will enable us to hold up our heads in the future and say we come from Richmond!

That was the spirit displayed at the important meeting held last evening at the Labor Temple under the auspices of the Red Cross Entertainment Committee. Fifty of the city's most prominent people were present including a representation from all the banks, the Standard Oil Co. and Pullman, Warren McBride, chairman of the drive in Contra Costa county was present as well as the chairman of the San Francisco campaign.

Interesting and valuable suggestions were offered, much benefit was derived from the meeting with a renewal of effort to raise the city's quota as a result.

NATURAL—1:00 to 3:00
EVENING—6:00 to 11:00
Sunday matinee—2:00 to 4:00

The Western States Gas and Electric company, the concern which supplies electric light and power to the people of this city has sent out the following letter to its patrons, which is self explanatory: To Our Customers:—

The following order has been received by us from the Power Administrator of the Railroad Commission and we would respectfully ask that you be guided accordingly: (1) Effective during August and September, 1918, except Saturdays, Sundays and legal holidays, no electrical energy shall be used: (a) For advertisements, notices, announcements, or signs designating the location of an office or place of business; (b) For the nature of any business; (c) For external illumination for ornamentation of any building; (d) For lights in the interior of stores, offices, or other places of business, when such stores are not open for business; (e) For excessive street lighting intended for display or advertising purposes.

(2) This order shall not be construed to prohibit the furnishing of electricity for such lights as may be required by law or public safety. We hope that the enforcement of this order will not seriously inconvenience you for the time specified.

At first the Power Administrator wished to enforce the above order for very night in the week, but after due consideration it was deemed best to permit the signs and other lighting specified to burn on the nights of Saturdays, Sundays, and holidays so as not to inconvenience the merchants and their patrons any more than absolutely necessary.

Everyone concerned with this order fully realizes that a dark, dull street is a dismal place and we hope, therefore, that you will turn your lights on at the specified times so as to keep the people of Richmond, including the buying public in a more happy frame of mind than if the lights were turned off every night. We hope that you will find it agreeable to accept the foregoing in the spirit in which it was conceived, as the motive for all these

As a money-making institution the Entertainment Committee of the Red Cross Chapter of this city has at other business ventures of the city bested more than a dozen city blocks. Without capital, except the plea to help the boys "over there," they go out and bring in the money by the thousands and tens of thousands. The committee is doing a great work and with all the people of Richmond at their backs, there is every reason to hope they will continue in the good work.

Here is the report of Treasurer Arthur Alstrom on the final figures from the receipts of the carnival of July 3rd and 4th and the sums received at the last meeting of the committee yesterday evening:

Pipfitters \$ 1.50
Mary E. Hamilton Post 5.50
G. A. R. Auxiliary 25.00

TO ALL PATRIOTIC CITIZENS

The following appeal to patriotism is issued by the Power Administrator appointed by the Railroad Commission of the State of California:—

Conserve Electricity

Patriotism demands that you save electricity for war industries.

Northern and Central California have a SERIOUS power shortage because of lack of rain during the past winter and the increased use of electricity by war industries.

These War Industries Must Have Power

There is not enough power for everybody at the present rate of consumption. It is up to you to save. Turn off lights whenever possible and use lower power lamps.

This is one other thing you can do in the great struggle.
H. G. BUTLER
Power Administrator.

Pacific Gas and Electric Co.

Tel. Richmond 531 739 Macdonald Ave.
